For The New-York Tribune,

It is an admitted fact, that suicides are vastly on thoughts, whether they agree with them or not, since has been truly remarked, that the only means of preconvince the perpetrator of the crime that, although he escapes from feeling the punishment it merits every indignity, which is compatible with the good of society, will as a consequence be offered to his body and to his memory. Each member of the community lives not for himself alone, but for the common weal, and in order to contribute to the general, the mutual, the public and the private support requisite to the healthful constitution of society. As it is the chief purpose of good government to preserve inviolate this principle of existence in all associated communities, so ought every effort to contravene it, or to escape from the responsibilities it involves, to be repressed and punished in ways the most effectual, conformably with the spirit in which only should punishment be inflicted; and even those who either directly or indirectly aid in the commission of this act, should be subjected to punishment. To Gerrit Smith, Leq.—My Dear Friend —I know that
you rejoice at the prospect as Leberish the desire, of
seeing every man enjoying the fullest and largest freedom. I slook know, unless seven years' acquaintance
with you has left me in a gross mistake, that, honest as
you may held any opinion, to which you give public expression, you are perfectly willing that even a young
man, though a black man, should publicly express a different continue.

ment.

Now allow me to ask, respectfully—

1. If the giving of the right of suffrage to black men was never dreamed of at the formation of the Liberty party—its sole and distinctive object being the extinction of negro Slavery—why should not we black men look to some other quarter for this longed for right;

2. Also, it it be beyond the province of the Liberty party to restore this right, why should black men prefer continued distranchisement, to the injury of this party, any more than any other party that chooses to neglect us?

us?

3. Beside, if any other men or party, in any or many counties, will put in nomination men, who, if elected, will give to black men the right of sulfrage, be they Whigs, Democrata, or Liberty men, how will it compromit the principles of Liberty men, who, like myself, differ from you in respect to the permanency and objects of the Liberty party, to vote for such men?

Would mus so to do, be doing just what you edvise, in Would not so to do, be doing just what you advise, in he Liberty men of New-Hampshire, who voted for Hon.

New-York. DR. H. F. PEERV'S VERMIFUGE, or Dead

DR. H. F. FEER VS VERMITUGE, or 'Dead' Shot,' for Worms—A highly concentrated and chemically combined preparation, capable, from the promptitude of its action, of clearing the system in a few hours of every worm. The exceeding small quantity of this medicine required to test the existence of worms or to remove every one from the system, its operating in a few hours, together with its great certainty of effect, constitute it one of the most brilliant discoveries of the age. It seldom needs to be repeated and never to be followed by any other purge; therefore in urgent cases, as those of fits, spasses or convisions, caused by worms, its unrivated superiority is manifest. Few medicines are better calculated to improve the headsh of childred-teem where no worms exist; as it removes those masses of crudities that line and closely after to the stomach and bowels, giving rise to symptoms that contact refer every variety of worm-disease. Though prompt and certain in its operation, it is perfectly safe and adapted to the tendereal age.

operation, it is perfectly sine and assepted to the tenderest age.

The following testimonials are selected from a multitude of others as evidence of its great medicinal value.

Extract from a letter received from Dr. Waraton.

Newcastle, Va. Jan. 3, 1944.

Draw Sin: I gave a vial of the "Dead Stoo" you left with me for the purpose of testing its merits, to a friend of mine, who introduced its use in his family by giving it to a patient selected as a seniable case. It was administered according to the directions around the vial, and to my astonichment, the first operation brought away 35 worms. I have administered it in several other instances since, with similar good success; and it will afford me much pleasure in doing all in my power to recommend it to the notice of my friends and the public generally.

With respect, yours, Ac. THOS. J. WHARTON.

JEFFERSONILE, VA. 13th May, 194.

I hereby certify that about six months since I made use of Dr. H. F. Peerly's Vermitage, in a case of one of my children, about the age of four years.
